

2015 Spring and Summer Outdoor Furnishings by EcoChic Lifestyles

Just in time for spring and summer living and entertaining, EcoChic Lifestyles' colorful, weather-resistant new outdoor line is available now at its online store (www.wearecochic.com). The creator of upscale, sustainable furniture is offering free worldwide shipping on any of its one-of-a-kind furnishings through March 2015.

EcoChic Lifestyles' new outdoor line comprises the same reclaimed teak wood and iron from bridges as its original line. Consumers will find that the larger coffee-table sizes they've been requesting are in place. Okeanos (large) and Samudera (medium) coffee tables complement the company's popular Oceanic (small) coffee table. And the new Backshore (large) and Breakwater (medium) coffee tables offer fans of EcoChic Lifestyles' Beach Buoys (small) coffee table additional size options to fit larger spaces.

The company's most popular commercial styles, the Fin and Tonic bar stools and chairs, make a new showing in brighter colors. Horizontal planks for the seat add a *je ne sais quoi* variation on the original Fin and Tonic look, which featured vertical planks.

"Our new coffee tables, bar chairs and barstools were created because many of our customers wanted these particular pieces for spring and summer, and we listened," said Megan Risdon, founder and CEO of EcoChic Lifestyles. "Although teak is a natural choice for any outdoor space, all of the furniture in our new line is also highly suitable for indoor use."

Risdon also searched for more eclectic colors to add to EcoChic Lifestyles' Luna Sea Room Divider. The new palette creates a must-have backdrop for any outdoor setting. The Sea-nergy Outdoor Screen is perfect for a casual poolside changing room.

EcoChic Lifestyles buys its wood directly from fishing communities in Southeast Asia. Its artisans then carefully sand each piece to reveal a rainbow of glorious colors peeled away from a rich and colorful past life spent at sea. The company uses only straight, solid teak, and finishes each handmade piece with an organic semi-gloss sealant. EcoChic Lifestyles' products range from larger pieces like consoles and sun beds to decorative pieces like mirrors and wall panels. The company also helps create custom items and can fulfill custom orders of any size.
